

To the General Counsel's Office

Re: MUR6745

2013 AUG 20 PM 2:31

Please accept this letter as an official response to a complaint that alleges I may have violated the Federal Election Campaign Act of 1971. These allegations are false and without any merit. I am a victim of identity theft and have never cashed or written any checks on an account that I was not authorized to use.

I was first made aware of this issue from someone outside the organization by the name of Luke Broziak from the Washington Times. Once I was informed of the suspected theft, I immediately contacted the Union. I corresponded with Robert Williams and Evert Kelly (Officials with the American Federation of Government Employees) in order to try and clear my name and find out why I was never contacted regarding this matter prior to the allegations being publicized. At Mr. Kelly's request, I sent him an email that explained what occurred and my position in this matter. A copy of the email is included with this letter. I also called the Union Headquarters in Washington, D.C. and spoke to a John Thompson on 5-22-13 who responded that he was not at the liberty to speak to me.

My name is Jennifer Theresa Scott and I have never in my life used or signed my name as Theresa Scott, financially or personally. The signatures on the checks are forged. I have never had a personal account or personal checks with SunTrust or Wells Fargo Bank in Georgia. I have been a Georgia resident for almost 8 years.

I lost my identification in 2012. Shortly after that, I began receiving information from Target that someone was using my name and committing fraudulent charges at their stores. I filed a Police Report with Rockdale County Police Department, case number [redacted] as evidence that I had been a victim of identity theft. Subsequently, the fraudulent charges were investigated and Target closed their case against me. I filed a Complaint with the Federal Election Commission and that Victim FTC number is [redacted]. In February I got a new license number with the Department of Motor Vehicles. If the bank accounts were open after that it was with an illegal license.

The Union needs to look within their organization and determine who has authorization and access to writing checks on their accounts, which I do not. I am now concerned that my personal information given to the Union when I enrolled may have been compromised and it's possible someone working in the Union found my identification and began committing these fraudulent acts. These are some very incriminating allegations that I have been accused of without a thorough investigation.

I am a victim and would appreciate any help that can be given to me to clear my name and find the person who is using my identity. You will have my full cooperation in investigating this matter. This has been a very traumatizing ordeal and I would like to see it resolved for myself and the Union. Please contact me if you need any additional information or documentation.

Sincerely,

Jennifer Scott
